

Are you familiar with this?

Yogurts that
get forgotten at
the back of the
refrigerator?

Jams that need
to be moved
aside to get to the
tomato sauce?

ComfortSpin - a clever twist in the refrigerator

You can turn ComfortSpin through 360 degrees in a jiffy.

ComfortSpin (28,5 x 42,5 cm) can easily be added to virtually any refrigerator or larder unit.

No matter whether refrigerator or cupboard - it simply attaches with suction pads, screws or tesa Powerstrips®.

Easily installed and immediately ready for use, the clever turntable gives you a full view of the food you keep in the refrigerator. And it is very easy to take out for cleaning.

Does ComfortSpin also fit into your refrigerator? More at
