

Upgrading to the Quadro 4D

Reviewing the benefits of the runner for wooden drawers

Montréal, Québec – June 30, 2020 – Since March, [Hettich Canada](#) has been encouraging clients and partners to upgrade to the Quadro 4D [runner for wooden drawers](#); the upgraded version of the famous Quadro. What makes the Quadro 4D so special is its steel ball bearings. Think about it: Cars, airplanes, trains, appliances, even tools and machinery rely on the steel bearings. Now, the steel ball bearing Quadro 4D can make your kitchen move, too.

The Quadro 4D drawer slides also guarantees the ultimate in drawer convenience: attractive design through concealed installation, long service life and unceasing top performance. The robust, resilient runners and steel ball bearings provide optimum control - for perfect vertical and lateral stability. Moreover, the integrated Silent System gently shuts drawers in complete silence, even the heavy ones.

The system also has an optional push to open mechanical mechanism so your drawer opens and closes effortlessly.

Let's take a moment to review the benefits of upgrading to the Quadro 4D [runner for wood drawers](#).

Benefits at a glance:

For lasting furniture enjoyment:

- High precision, maintenance free steel ball bearings
- Special Quadro profile geometry for good tracking and stability
- Harmonious, smooth running action

For efficient furniture production:

- A multitude of opportunities for variation with uniform drawer dimensions and carcass drillings
