Hettich – an Indian success story

Hettich started operations in India with the dawn of new millennium. In the short span of 14 years, the company has gained the undisputed leadership position in the Indian furniture fittings & hardware industry.

Hettich India prides itself on having most of the major hardware dealers in India as its trade partners across the country. These dealers are spread over all important cities and towns, so that they are within easy reach of the customer. Hettich India delivers complete "peace of mind" to the Indian furniture manufacturing industry. We have a strong reputation for providing high quality and high tech products. Our products are backed by pre- and after-sales service and on-time deliveries, and by value adding services like design and installation support.

Innovation through expertise

We combine intelligent technology with functionality and design, and then we apply the results to our fittings – from drawer and runner systems, hinges and connecting fittings, to fittings for folding and sliding doors. This is how Hettich has evolved into the global success story it is today.

Our unfailing capacity for innovation and dynamic development, and our ability to come up with answers to ever-changing questions has made Hettich a technology leader worldwide. Innovation will always be a powerful driving force at Hettich.
Protecting the environment

We share responsibility for the world we live in, so we take our commitment to safeguard the environment extremely seriously. Hettich’s environmental management system is EMAS-compliant (EMAS is a European environmental standard incorporating ISO14001 requirements). We make every effort to be as green as we can be, so that you can work with us with a clear conscience.

We’ve made sure that our products and production systems are environment-friendly. Almost all Hettich products can be disassembled and fully recycled. Our manufacturing systems are planned to minimize the use of energy and resources. Our products meet RHOS standards and do not damage people’s health or the environment. Hettich’s high-quality products last a long time – which means fewer replacements and thus lower resource consumption. This all makes good economic sense for our customers too.
Quality

Hettich products stand for high quality. Once assembled, our fittings function perfectly day in, day out. High quality products and processes confirm our sense of value, our self confidence and our image. The way to our quality goal is for each one of us to cultivate an intense quality awareness.

Closeness to Customers

For us closeness to customers implies sharpened awareness, attention to detail, a grasp of complex challenges, and efficiency in production and logistics. We know our customers. We’re there when our customers need us! The keynote of our partnership with our customers is direct, person-to-person communication.

Innovation

The right balance of continuity and innovation generates trust in the Hettich brand. We offer timely, high-value solutions for today’s furniture; at the same time, we identify and shape the trends of tomorrow. We review and improve existing solutions ready for the future. Driving innovation is our capacity for looking at things from new angles.

Reliability

Quality, innovation, closeness to customers – they’re nothing without reliability! Reliability encompasses the durability of our products and the reliability of Hettich people – each and every one of us. The solid basis for reliability is robust and stable processes.
Free Design Service:
Looking for Designs to liven up your Living Room, Bedroom, Bathroom & Kitchen. A dedicated team of highly qualified Interior Designers is at your service to provide customised design solution to suit every taste and budget at zero cost to you.

Free Consultation at your doorstep:
Looking for perfect Furniture Fittings solution. A dedicated team of highly qualified professionals is at your service to provide the perfect furniture fittings solution to suit your need and budget at zero cost to you.

Hettich Customer Care Service:
In today’s fast paced and technologically advanced era, most of the organizations succumb to the pressure of staying ahead in the competition and often, end up neglecting the most critical aspect of business i.e. CUSTOMERS. Hettich, being a CUSTOMER CENTRIC organization, is very sensitive towards this tendency; hence, we constantly try to provide the best and quality driven products and services.

Dip into modern home environments. Find inspiration. Come face to face with Hettich products and try them out. Experience innovative functions first hand. Understand how systems go together. Discover valuable assembly advice. Take away new ideas.
There are many good reasons to visit our showrooms. Because Hettich is best discovered at Hettich. Technik für Möbel – a fascinating world we’d like to take you through. Contact one of our branches, a Hettich importer or – if you are in Germany – our headquarters in Kirchlengern. We look forward to seeing you.
Kitchen experience:
Convenience and design for indulgers

The kitchen has always been the focal point of everyday living. Hettich provides convenience and quality of life here too. With practical fitting technology that makes kitchen work easier and improves ergonomics. With drawers that open almost by themselves and close again in complete silence. With pull-outs designed to carry heavy loads for clearly organised, easy access food storage.

At the same time, Hettich technology for furniture opens up new avenues in design. Handleless front panels, wide pull-outs and large surface fronts with narrow reveals make aesthetic statements in modern kitchens. And create a purist, exclusive design for indulgers!
Bedroom experience:  
Technology for dreamers

If the bedroom were only for sleeping in – we could keep it short on this page. But modern bedrooms offer more than a peaceful night’s sleep. It’s a favourite place for daydreaming, for relaxing with a book or for watching a good television programme in the evening. This is also the most practical place for getting dressed and changed – or in the separate dressing room. People are becoming more demanding; which is why these spaces need intelligent functions and a homely atmosphere too.

Large surface sliding doors, handleless and flush fitted, are "balsam" for the eyes. And plenty of storage space. Synchronous sliding or the Push to open function for hinged doors add further highlights in convenience and aesthetic appeal.
A refreshing start to the day, and a relaxing soak in the evening: the bathroom is the home's haven of pampering and indulgence. It’s where body and soul can unwind. Can furniture technology be of help here?

And how! Luxury bathroom interiors pamper the senses and promote relaxation. With drawers and cabinet doors that close in silence, for example. With intelligent interior organisers that keep everything in reach. And innovative fittings that move furniture fronts smoothly and quietly. Flush fitted sliding doors running in complete silence conjure a purist ambience and calm the senses. And because Hettich technology for furniture works so gently and quietly, you rarely notice it is there. That's the biggest compliment technology can ever be paid.
Commercial spaces:
Big demands on small spaces

Intelligent, interesting, imaginative – that’s how brand manufacturers want their product presentations to be. This is not only where Hettich offers creative ideas but also the right technology: fitting solutions for variable storage space and for lightweight modules. Innovative shelf and drawer systems. And solutions that are always tailored to creating any chosen store look. Easy installation and a long service life make them cost effective too. With Hettich, you can turn great ideas into practice that also work perfectly in every last detail.

Advice

For Telescopic runner, see page 115 – 116
For Installation, see page 49 – 50
Installation

- With KA telescopic runner

**Components**

1) CargoTech M
2) KA Telescopic Runner
3) Clip (8 nos.)
4) Fascia attachment (4 nos.)
5) Logo

Position of Fascia attachment
Installation

- With KA telescopic runner

Installation stages

1. Align Components
2. Attach clips
3. Fix runner with clips
4. Check alignment with Carcass
5. Final assembly, basket fixed to fascia

Carcase height
Carcase width
Carcase depth
CargoPlus: Uniqueness of InnoTech and convenience of CargoTech combined together

To fulfil people’s emerging need for a drawer system having a mix of aesthetics and functionality of InnoTech and versatile inlets of CargoTech, Hettich has introduced “CargoPlus”. This unique amalgamation of our two products offers greater flexibility to people wanting to have a look, feel and usability of both drawer system and wire baskets.

- Available in two depths 470 mm & 520 mm
- 3 way fascia adjustment
- Load capacity 30 to 50 kg
- Compatible with quadro runners

Please refer Page 61 - 62 for Technical Information and Installation

11. Lengthwise railing, 2 each
Installation Stages

1. Assemble InnoTech with back panel
2. Place side holder in InnoTech bottom panel slot
3. Fix side holder with screws from bottom
4. Place CargoPlus in side holder groove
5. Slide clamps to fix CargoPlus to side holders
6. Fix clamp on all four corners as shown in picture
Neat on the outside, clever inside. That’s the motto of modern kitchens. Intelligent fitting systems from Hettich let you include innovative functions behind attractive front panels. Also make efficient use of small midway sections, narrow cabinets and inaccessible corner to the benefit of your customers: provide unobstructed, easy access to storage space. The versatile organiser systems can be matched to the user’s specific needs. High quality materials and attractive design define the look of first class quality.
