This catalogue will provide you with a wealth of new ideas. It gives details of our products and illustrates practical applications. It will help you to improve your ability to plan, design and realize your customers’ dreams.

Behind each separate idea lies the strength of combined experience. We are a family-managed firm with a tradition of innovation and customer service going back over a hundred years. Looking back to our origins, we offer our customers opportunities to increase their competitive advantage through our continuous innovation.

We operate throughout the world. This means we’re within reach wherever you need us. The consistently high quality of our products helps you to maintain your good reputation with your customers. Our reliability makes your planning easier.

We guarantee our products and services with our name and with all that it stands for.

Yours sincerely,

Team Hettich India

Your success is our goal

This catalogue will provide you with a wealth of new ideas. It gives details of our products and illustrates practical applications. It will help you to improve your ability to plan, design and realize your customers’ dreams.

Behind each separate idea lies the strength of combined experience. We are a family-managed firm with a tradition of innovation and customer service going back over a hundred years. Looking back to our origins, we offer our customers opportunities to increase their competitive advantage through our continuous innovation.

We operate throughout the world. This means we’re within reach wherever you need us. The consistently high quality of our products helps you to maintain your good reputation with your customers. Our reliability makes your planning easier.

We guarantee our products and services with our name and with all that it stands for.

Yours sincerely,

Team Hettich India

Your success is our goal
introduction

"If this business were split up, I would give you the land and bricks and mortar, and I would take the brands and trademarks, and I would fare better than you."

John Stuart, Chairman of Quaker (ca. 1900)

The tag line with the logo says it all, HETTICH is Technology for Furniture. This is what we have been doing with great success for over 100 years and is precious to our diversification in numerous business units.

Our Brand Values — Quality, Innovation, Reliability, Eminence to Customers are what we stand for. All our actions are with the end user in mind. We want happy, and satisfied customers at the end of the value chain, who guide our every activity.

With the right mix of innovation and tradition, Hettich helps you to elevate furniture design and reliable solutions that suit your requirement in each product.

In keeping with changing lifestyles, the kitchen has undergone transformation. It is no longer just a place to cook. It is a style statement of the home-maker and is meant to offer convenience, ease and efficiency to the consumer besides being hi-tech and looking good. That’s why it’s so important to get efficiency moulded into its design.

Hettich helps in elevating your kitchen design. Eamonn Cullen and Eugene Sumerford, designed user-friendly kitchens.

Imagine a kitchen where drawers open and close silently and effortlessly at the slightest pressure - EASYS. Or a new way of storage at eye level under the wall unit in the kitchen that provides stylish and convenient access to the jars, packets and more - COSARIO. Or wings attached to your drawer system for organized storage and easy access of small items - ORGAWING. Or not having to stand on a stool to retrieve small items stored at the back of wall mounted cabinets - CARGO IQ. These and much more at one stop are what we do as a part of our world's biggest and most efficient kitchen manufacturer, Hettich is proud to present 20 contemporary and distinctive kitchen designs and ideas with carefully thought out solutions for your kitchens.

With its vast experience of being the world's largest and most efficient kitchen manufacturer, Hettich is proud to present 20 contemporary and distinctive kitchen designs and ideas. You can choose a kitchen of your dreams.
