Hettich Customer Care Services:

In today’s fast-paced and technologically advanced era, most of the organisations succumb to the pressure of staying ahead in the competition and often end up neglecting the most critical aspect of business i.e., CUSTOMERS. Hettich, being a CUSTOMER CENTRIC organization, is very sensitive towards this tendency, hence, very sincerely try to provide the best and quality driven products and services.

Hettich – an Indian success story

Hettich started operations in India with the dawn of the new millennium. Within a span of 14 years, the company has gained the undisputed leadership position in the Indian furniture fittings & hardware industry. Hettich India prides itself on having most of the major hardware dealers in India as its trade partners across the country. These dealers are spread over all the important cities and towns, so that they are within easy reach of the customer. Hettich India delivers complete ‘peace of mind’ to the Indian furniture manufacturing industry.

We have a strong reputation for providing high-quality and high tech products. Our products are backed by pre- and after-sales service and on-time deliveries, and by value adding services like design and installation support.

The company’s origins date back to 1889, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a center of the German furniture industry.
The new multifolder: WingLine L

Sliding folding doors provide the key to picking up on modern, spacious interior design and continuing it in furniture. Large-surface doors create purist interiors, especially when they come from flush fitting sliding door systems.

Modern sliding folding door systems appeal for their narrow gaps, which are reduced to the minimum by large-size fronts. Straight forward precision adjustment guarantees impeccable assembly results complemented by perfect gap alignment.
Experiencing folding doors in a new way.

WingLine L lets you realise folding sliding doors in a completely new dimension of convenience. The revolutionary Push / Pull to open opening mechanism provides access to everything inside the cabinet with just one movement of the hand.

An impressive panorama effect!

Further highlights: optimised running performance, soft opening and closing, tool-less installation as well as minimal door protrusion for efficiently organising the space inside. WingLine L competently and securely moves door wings weighing up to 25 kg and measuring up to 2,400 mm in height: a talented all-rounder for the bedroom, kitchen and office.
WINGS ARE MORE THAN INTUITIVE

EVOLVED FURNITURE “TYPOLOGY”
WingLine L
with Push to move and Pull to move

Pull to move and Push to move are two innovative and unique opening mechanisms for folding door systems. A slight pull on the handle or gentle push on the (handleless) front automatically opens the door all the way, taking it to the open position in a cushioned movement. A fascinating opening effect that works all mechanically! This means it requires neither cables nor any connection to the power supply.

COMPONENT

1. Runner and guide profiles
2. Push to move / Pull to move
3. Bases
4. Push to move
5. Guide component
6. Center hinges
Installation accessories

CAPACITY CLASSES
For Push to move and Pull to move to work perfectly in conjunction with every door size and weight, the modules are available in various capacity classes. Choose the right set for your particular application. A trial mounting is recommended.
