Feel style

Purist design. Perfect performance.

The perfect way to feature glass surfaces in furniture: with its narrow bonding surfaces, the Sensys hinge emphasises the purist look of glass elements. And the integrated Silent System makes sure that delicate glass doors close gently and reliably. The strong bonding system lets you combine fronts and cabinet bodies in different materials. This way, Sensys gives you new design perspectives. Unobtrusive and minimalist in form, extremely convenient and secure in function.

Sensys for glass applications provides the tried and tested user friendly functions that Sensys has to offer.
