As individual as you:

AvanTech YOU drawer system with Actro 5D drawer runner

Technik für Möbel

Hettich

As individual as you – AvanTech YOU
The new AvanTech YOU drawer system scores from design diversity and creative flexibility, from concealed working parts and perfect performance as well as from an efficient product concept geared to the customer.
Design distinctive drawers: the AvanTech YOU drawer is distinguished by immaculate beauty from its slimline and sleek 13 mm drawer side profile. And by the ability to turn personal ideas into reality every time.

Get a variety of clever functions: one drawer, two runners and numerous user friendly functions. Flexibly combinable with each other by using one and the same drilling pattern.
Efficient and cost effective production: the comprehensive platform concept and perfect product adjustments to production and assembly processes guarantee cost effectiveness and efficient work flows while at the same time providing the basis for a broad product lineup.

Design diversity and creative flexibility:
different shapes, colours and materials consistently continue furniture design on the inside too.

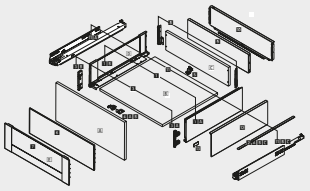

Many different options for customisation:
creative design flexibility in every detail. Attractive highlights are added with design profiles and DesignCapes.

Precision designed furniture:
AvanTech YOU competently combines technology, functionality and performance to suit any preference.

Summary

AvanTech YOU
- Range summary 5
- Exploded drawing / Overview of components 6 – 7

AvanTech YOU drawer
- Height 77 mm 8 – 11
- Height 101 mm 12 – 15
- Height 139 mm 16 – 19

AvanTech YOU pot-and-pan drawer
- Height 187 mm 20 – 23
- Height 251 mm 24 – 27

AvanTech YOU Inlay pot-and-pan drawer
- Height 187 mm 28 – 31

AvanTech YOU fascinates!

The AvanTech YOU drawer system provides a huge amount of design flexibility in terms of colour, shape and material, giving you the key to successfully turning your own furniture design ideas into reality. Incredibly easy to achieve with AvanTech YOU, whatever personal character you want a design to reflect is a matter for you to decide. With a simple click, design profiles or DesignCapes conjure an accentuated, visual transformation. AvanTech YOU Inlay, the elegant drawer side profile with glass inlay, does away with the boundaries between space and furniture and focuses the eye on furniture design. Printing your logo on the drawer side profile completes your design.

With this versatile system, however, you can let your own imagination run free. With the option of using any chosen materials, your ideas become distinctive solutions that stand apart! Whether for use in the bathroom, living room or kitchen – your wishes are easily fulfilled with the broad diversity of this product range and the many different ways of creating furniture with a look of individuality.

Fascinated by solutions.
We call it

Fascin[action]

Feel style

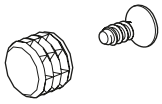

Excitingly different
Whether an airy light purist look, classy combined facing panels in glass or exclusive materials – your creative flexibility is suddenly endless. Drawer front panels can be reduced to a thickness of 10 mm. This also makes a lightweight front in heavy materials. With unchanged attachment positions, all very easy and straightforward.

Ideal in combination with Sensys thin door hinges for an overall look of harmony.

Technical details in brief

- For front panels in thicknesses of 10 mm and over
- 10 mm socket for optimum fit in soft materials (MDF transverse tensile strength > 0.6 N/mm^2, chipboard transverse tensile strength > 0.45 N/mm^2)
- Self tapping screws for optimum fit in hard materials (e.g. solid surface material, natural stone, artificial stone, ceramic)
- Use with standard drawer front connector
- The attachment method must be suitable for the type and quality of door material and tested for a secure fit

For H77 / H101 / H139 / H187 / H251 / Inlay drawer side profile connectors

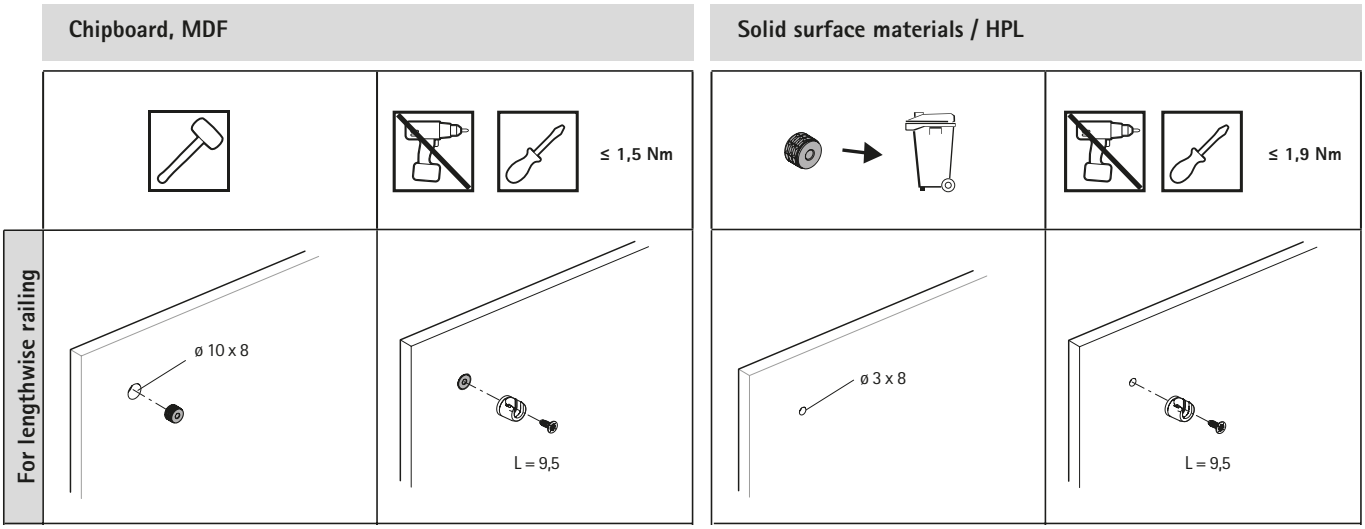

Set comprises:
- 10 sockets, ø 10 x 8 mm
- 10 self tapping screws, ø 3.5 x 16 mm

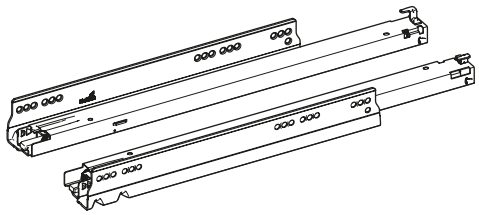

Advice:
Screw on drawer front connectors for drawer side profile must be ordered separately

Order no.	PU
9 268 149	1 set

Installation

11 A Actro YOU drawer runner with Silent System

Precision that gets things moving

The Actro 5D drawer runner is simply the perfect choice for unique furniture design, narrow reveals and large front panels. Adjusting in 5 directions, front panel reveal alignment meets the most exacting demands. Excellent running performance and incredible stability provide supreme quality you can feel and hear.

Make a great impact with smooth running action:
Actro 5D, smooth running and synchronised

Fascinate with minimal reveals:
5-way adjustment for extremely narrow reveals

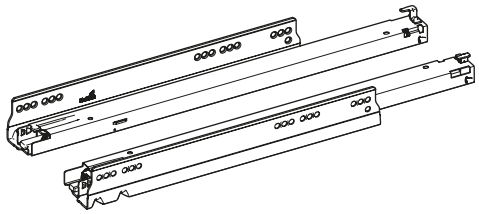

Impress with stability:
up to 70 kg load capacity

Effortlessly handleless:
Push to open Silent combines elegance with convenience

Actro 5D full extension runner with Silent System, optionally with Push to open Silent

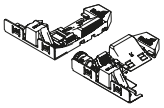

- **Silent System** - the integrated Silent System closes the drawer quietly and gently
- Catch for convenient slide on installation must be ordered separately
- Tool-less, intuitive vertical adjustment up to + 3 mm, lateral adjustment up to +/- 1.5 mm, radial adjustment up to +/- 1.5 mm and tilt adjustment + 4 mm
- Optional: depth adjustment up to +/- 2 mm
- Optional: Push to open Silent opening system
- Load capacity to EN 15338, Level 3
- Galvanised steel, suitable for rooms exposed to moisture

Quality that meets all the demands

The quality of the drawer systems is monitored continuously. Hettich fittings comply with the national and international quality standards of the markets our customers operate in. The diagrams below show some of the tests Hettich fittings are required to pass.

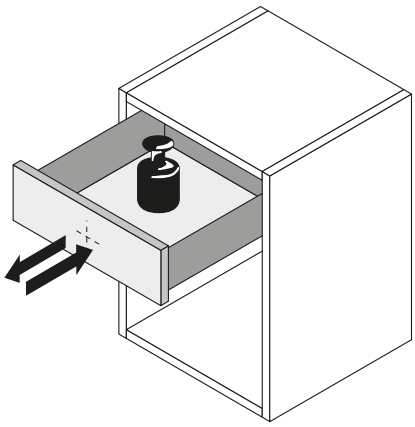

Application area
Hettich drawer systems are suitable for use in living room, kitchen, bathroom and office furniture both in the home and business environment.

Load capacity and guards preventing unintentional detachment / removal
The load capacity indicated (to DIN EN 15338) is understood to mean the weight of the drawer itself, including contents, in kg. The applicable level is shown on the product. The load capacity refers to a reference length of 500 mm. The load capacity may vary for other nominal lengths. All Hettich drawer systems feature guards to prevent the drawer from rolling out and being removed unintentionally and meet the requirements of the impact test in a test frame to EN 15338. Fitted in the proper manner, the drawer systems are suitable for furniture defined in EN 14749. The maximum front panel height depends in particular on the material, drawer size and drawer runner. Testing is conducted on drawers with a 130 mm front panel height and pot-and-pan drawers with a 300 mm front panel height. We will be pleased to provide any further information you may require.

Corrosion test
Hettich runner systems satisfy the requirements on corrosion defined in DIN EN 15338, 72 hour condensation water test to DIN EN 6270.

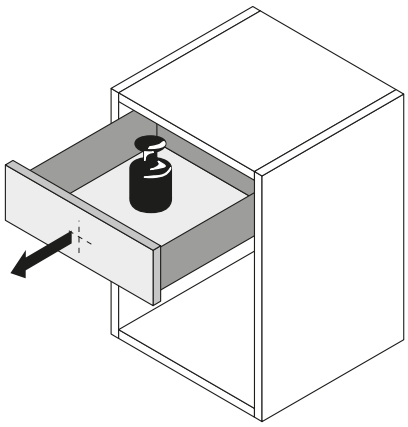

Wear test

The fully laden drawer must remain in proper working order after opening and closing it for a defined number of times at a defined test velocity.

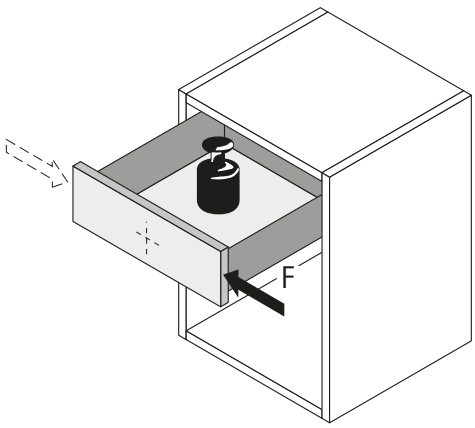

Retention-on-opening test

The fully laden drawer is abruptly opened all the way several times at a defined test velocity.

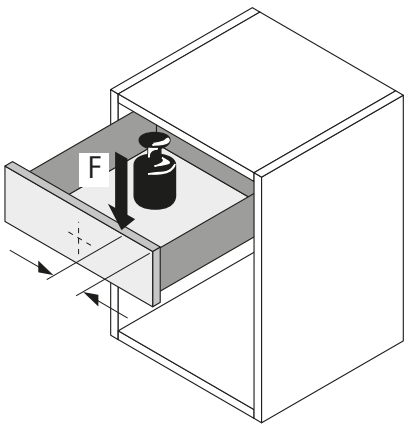

Horizontal load test

Opened all the way, the fully laden drawer is additionally exposed to horizontal strain from a defined lateral force.

Vertical strain test

Opened all the way, the drawer is additionally exposed to vertical strain from a defined eccentric force.
