

Experience Hettich first-hand at Holz-Handwerk 2022

Exciting show presentation for the carpentry trade

"Hettich – always at your service." It is with this partner-focused invitation to all cabinet makers, carpenters, fabricators and retailers that the fittings specialist will be on display from 12 to 15 July at Holz-Handwerk "Summer Edition 2022". On stand 304 in hall 10.1 in Nuremberg, Hettich will be showcasing its innovative solutions along with practical service and consultancy offerings that will let the trades continue along on their path of success in the future too. And anyone who's now quick off the mark can benefit: until the start of the fair, Hettich is offering free show tickets to trade visitors online.

Covering all aspects of Holz-Handwerk, Hettich has set up a special landing page: <https://fairs.hettich.com/en-de/home>
This is where trade visitors can get advance information and secure online vouchers for free show tickets until the 12 July closing date. So, clicking this page is doubly rewarding.

With its new and pioneering show concept, Hettich is bringing a breath of fresh air to Holz-Handwerk 2022: every day of the fair will be seeing live events on all important topics directly on the stand. At the dedicated "eServices" consulting point, trade visitors will have the opportunity to get an overall picture of Hettich's extended range of digital services. Available from Hettich free of charge, these convenient and easy to use online tools will make the work of carpenters and retailer even faster and more efficient. will, of course, be a key topic here too. The stand's "Paul explains how" zone will also be staging live assembly demonstrations and providing first hand information on the actual assembly machines themselves.

And Hettich's presentation in Nuremberg will also be focusing on inspiring new products in various fields of home living, work life and services: the AvanTech YOU drawer platform in combination with the creative Cadro frame system, the Actro 5D pull-out system, the TopLine XL sliding door system being used for making versatile spaces, height adjustable Steelforce desk support frames or room sliding solutions from Kuhn, a Hettich Group company, being just a few examples. Equally important to Hettich are the prospects for the furniture future. Anyone curious to find out more can do so in Nuremberg on Hettich's stand from 12 to 15 July.

work together towards the objective: developing intelligent technology for furniture. Hettich thus inspires people all over the world and is a valuable partner for the furniture industry, trade and craft. The Hettich brand stands for consistent values: for quality and innovation. For reliability and customer proximity. Despite its size and international significance, Hettich has remained a family business. Independent of investors, the company's future is shaped freely, humanely and sustainably. www.hettich.com
