

Assembly systems from Hettich

New products for the trades

BlueMax automatic drilling and insertion machines provide fabricator-specific solutions with which Hettich concentrates rationalisation endeavours in the trades and interior finishing on a single product. ***BlueMax*** not only ensures efficiency in drilling hardware holes and hole lines but also while inserting hinges, mounting plates and connecting fittings. The modular ***BlueMax*** system permits full cabinet assembly and gives the fabricator the right answer to any requirement.

BlueMax Mini Modular

Complementing the system line-up, the *BlueMax Mini Modular* combines the many benefits from the *BlueMax Modular* and *BlueMax Mini Type 3*. The machine is equipped with interchangeable drilling unit technology and offers a choice of different drilling units: 6-spindle drilling unit for connectors and hinges, 9-spindle drilling unit for hole lines, 9-spindle drilling unit offset by 90 degrees for runners, and latching stops for frequently recurring dimensions. Numerous accessories round off the *BlueMax Mini Modular*: foot switch, adjustable centre stop in the workpiece support surface, continuation stops for drilling hole lines, hold-down clamps for keeping the workpiece firmly in place, swivel arms for dies to insert connectors and fittings.

ArciFit assembly system

Various aids are available for assembling the *ArciTech* drawer: *ArciFit 100*, a simple manual assembly system for capacities of up to 15 drawers an hour. With *ArciFit 200*, the drawer is assembled

on a sturdy assembly frame and the system components of the *ArciTech* drawer can be fixed in place by hand. *ArciFit 300* provides a sturdy assembly frame with pneumatic fixing of system component and pneumatic insertion of the drawer-bottom clips.

Drilling jigs

Three drilling jigs provide even greater work efficiency: *Practica* templates as well as two aids for knocking front-panel connectors into the *ArciTech* drawer, the depth-adjustable *Accura* drilling jig as well as the drilling jig for *Lift Advanced* flap fittings.
