

## **Hettich and Vanico-Maronyx: A Long-Standing Partnership Continues in 2019**

**MONTREAL, December 19, 2018** - Hettich Canada is proud to announce that its long-standing partner, Vanico-Maronyx, will continue to use Hettich products to design and build their bathroom furniture.

The management and purchasing team at Vanico-Maronyx recently revised the company's relations with its main suppliers and chose to maintain its partnership with Hettich Canada. Vanico-Maronyx's decision was based on several factors:

- Atira drawers offer great value for money.
- Atira drawers adapt perfectly to its needs: converting InnoTech systems to Atira hardly requires any changes to existing collections.
- Quadro runners being interchangeable and compatible with all drawer systems, only one type of runner needs to be kept in stock for both metal drawers and wood/melamine drawers.

"Atira runners made by Hettich offer great value for money," says Évelyne Gauvreau, Assistant Director, Marketing. "Hettich provides quick and efficient service! We have been doing business with Hettich for many years. It's a trusted partner for Vanico-Maronyx."

René Dionne, President at Hettich Canada, highlights how important it is to be a first-rate supplier for the Vanico-Maronyx family. "The entire team is proud to contribute to Vanico-Maronyx's growth and to help it stand out in a highly competitive market," he says.

In addition, this January, Vanico-Maronyx moved into their new 78,000 square-foot manufacturing plant. The bold investment of nearly \$10 million will help Vanico-Maronyx reach its objectives of progress, local economic stimulus, and social and environmental responsibility.

Hettich Canada is delighted to continue this business relationship. We hope the journey that our businesses are on lasts for years to come and brings much success.
