

## **Impressive under wooden drawers**

### **Quadro full extension runners with Silent System for plug on installation**

**Furniture scores with the concealed *Quadro* runner through smooth running performance, elegant look and reliability. The new plug on *Quadro* full extension runner with integrated Silent System provides maximum convenience and a feel of luxury at little cost.**

The plug on principle means there is no need to purchase any runner catch. The integrated, automatically engaging lift off guard ensures safety in everyday use and makes installation much easier, particularly with drawers fitted close to the floor. This makes *Quadro* runners ideal for high volume industrial production and for furniture assembled by the consumer.

Besides the gently closing Silent System, the runner also has an integrated, tool-less height adjustment facility to permit perfect front panel alignment. Together with its reliable performance, the *Quadro* runner provides an impressive combination of look, convenience and price.
