

Process and Cost Efficiency: Features of the AvanTech YOU Drawer System

An Article Series

Montréal, Québec – July 29, 2020 – The [AvanTech YOU drawer system](#) offers you potential savings and opens up opportunities in many

ways. It places the focus on the success of your future or interior design business and reduces customisation to a simple formula: variety with few adjustments and quick processing. This results in cost effective process optimisation in purchasing, stock keeping, production, assembly and installation, keeping you prepared for the future and giving you flexibility for changes.

Since the broad platform lets you reduce variance and stock components while still maintaining a broad product lineup, it's safe to say that one of its many innovative qualities is its efficiency in processing and costs.

Precise and Reliable Adjustment

- The drawer system provides easy vertical and lateral adjustment (unique exterior décor sliding mechanism)
- Easy drawer tilt adjustments as possible with access from above (dual function of the designer profile)
- Simple, tool-less installation of the front panel
- Safe detachment of the front panel (retaining function in the drawer side profile)
- Flexibility to switch: the drawer can be installed on an Actro YOU slide with the AvanTech YOU profiles. Alternatively, instead of design profiles, the same slides can be added to a wooden drawer, therefor rendering the slides as interchangeable.

Design Meets Functionality

- Perfectly purist drawer side profile design meets maximum functionality
- Vertical, lateral and tilt adjustment invisibly integrate into the drawer side profile

- Design diversity and flexibility from designer profiles, Design-Capes and a variety of inlay materials
- Runner platform for a wide range of applications

Intuitive Installation

- No need for any bottom panel machining
- Bottom panel width = rear panel width
- No catches need to be fitted
- Convenient, practical rear panel installation (one dimensional jointing direction)
- Bottom panel can be screw-mounted or stapled on

Purchasing any item of furniture begins with a need that is unfulfilled: customised design, more comfort and convenience of more storage space. Whatever the need, the AvanTech YOU drawer system will fulfill it. Use the options available from the AvanTech YOU platform to reinforce the design of your furniture as a brand.
