

ProDecor handle collection 2016

Inspired by Life

New models and new materials make the 2016 *ProDecor* handle collection a design factor in every piece of furniture. Hettich provides cabinet makers with a convenient service package for advising, planning and producing.

New products for 2016

Interior design is an expression of personal style. This is why there are the four *ProDecor* style worlds of New Modern, Deluxe, Organic and Folk – for homes with personality. 40 new models with 170 options have been included in the new *ProDecor* handle collection for 2016. The copper and retro trends have had a key influence on the new models and give the four style worlds new impetus: from clearly defined styling, luxurious materials and colours to natural looking materials and traditional shapes. Altogether, the *ProDecor* collection features 265 handles and knobs in over 1200 options.

ProDecor general catalogue for 2016

The new *ProDecor* catalogue offers a quick overall picture of the handle collection from Hettich: arranged by style worlds as well as materials. Besides illustrating products on their own, pieces of furniture are pictured to show how a handle influences the look of furniture. The 2016 *ProDecor* catalogue can be ordered free of charge at: info@hettich-furntech.com.

Online service tools

What does a handle look like on different front panels? The handle configurator from Hettich quickly lets cabinet makers display and present their ideas. Once the main features have been selected for the preferred type, the configurator looks for the right handle from the entire *ProDecor* range. In addition to the user friendly ordering function and comprehensive article information, the Hettich online catalogue also provides CAD data for downloading.

The following picture material is available for downloading from www.hettich.com:

Copper handles add warming highlights in a cool ambience too. *Megina* from the Organic style world shows what a major impact a handle has on the look of furniture. Photo: Hettich

Coming in different lengths, the *Lamezia* grip profile handle can be used for a variety of applications: on sliding doors, hinged doors and drawers. Photo: Hettich
